Dear Hiring Manager,

My name is Valeria Brochero, and I am excited to apply for the Business Systems Analyst position at your company. As a soon-to-be graduate of the University of Louisville with a B.S. in Computer Information Systems and a specialization in Business Process Management, I bring a strong technical foundation, combined with a growing passion for data-driven problem-solving.

Throughout my academic journey, I've built hands-on experience in web development, system diagramming, prototyping, data cleaning, manipulation, and cybersecurity. These diverse skills have strengthened my understanding of how systems function end-to-end and sparked a deep interest in the back-end processes that support business operations. I am eager to contribute and learn from an environment where database systems and organizational strategy intersect.

I'm excited about the opportunity to bring my curiosity, technical skills, and analytical mindset to your company. I am confident that my enthusiasm for improving systems, combined with my desire to learn continuously, would make me a strong addition to your team.

Thank you for your time and consideration. I would welcome the opportunity to discuss how my background and passion for data can support your organization's goals.

Sincerely,

Valeria Brochero
